Are you interested in studying in the United States, but your English skills are too low? Come to SAU-ESL! We'll prepare you for full participation in Southern Arkansas University's degree programs by speeding up your English language learning and fluency and by developing your strategies for successful academic discourse and cultural competence.

We will assess your English and place you in one of our 5 levels. You will have 18 hours of instruction per week (12 of classes, 6 of lab) in five different classes (Intensive Reading, Writing, Conversation, Grammar, and Lab). When you meet SAU's English proficiency requirement, you will be able to start your degree program at the beginning of the next semester.

SAU is a comprehensive regional university in a familiar, small-town environment that offers many majors and degree programs available in four colleges: Business, Education, Liberal and Performing Arts, and Science and Engineering.

As an SAU-ESL student, you will have access to all university facilities and services, including health services, the library, Internet access, computer labs, exercise facilities—such as the gym and the pool—and student clubs!

Finally, you will appreciate that our tuition and fees cost much less than many other universities.
